***Response to Arguments***

This Office Action is in response to a communication made on April 23, 2008.

Claims 1-7, 9-23, 25-37, 39-45 are pending in this application.

Claims 8, 24, and 38 have been cancelled.

***Claim Rejections - 35 USC § 101***

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claim 45 is rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. Claim 45 is directed towards a call manager comprising means-plus-function claims. A call manager is described in the specification as a software program and it is clear that the means for performing steps include software means. This shows that at least one embodiment of claim 45 is entirely software which is non-statutory subject matter.

***Allowable Subject Matter***

Claims 1-7, 9-23, 25-37, 39-44 are allowed.

***Response to Arguments***

Applicant's arguments filed June 23, 2008 have been fully considered but they are not persuasive. The applicant argues that the means-plus-function corresponds to hardware structure of a general purpose computer. The examiner disagrees, the

means for performing the listed functions can include computer code designed to perform those function when executed. The claim requires no hardware, and includes the computer program embodiment, so the claim reads on non-statutory subject matter.

### ***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
